Chester W. Woolworth, president of the Animal Trap Company had foresight enough to scour the country for screw machines before a single war order came in, and founded the local Lancaster County Office of Price Management. He raised 20,000 dollars for the Republican Party. Before orders for bullets came in from the British Purchasing Commission, the factory turned out army cots, and coat hooks. He was inspired by the York plan for subcontracting to small machine shops, Lititz, November 1942.

Pittsburgh (Westinghouse Electric Company)

By using a polarized light apparatus to take pictures of plastic
models of turbine nuts and bolts, Dr. Hetenyi, Hungarian born
research engineer at the Westinghouse Electric and Manufacturing
Company, has discovered how to make this fastening device
up to 40 per cent stronger. He found that nuts and bolts with
broad shoulders and tapered bodies distribute stress on threads
more evenly than do ordinary nuts and bolts, Pittsburgh,
June 1943.
